

SAEINDIA AEROSPACE BOARD

The Aerospace Board of SAEINDIA was created to engage and support the increasing aerospace footprint in India.

The Aerospace Board was officially inaugurated on 17 December 2009 with Dr. Bala Bharadvaj of Boeing as chairman

OBJECTIVES OF THE CONFERENCE

This program will be a congregation of Policy Makers, Captains and Technology Leaders of Aerospace & Defense Industry from both India and abroad. As the theme suggests, the program will focus on how Digital Revolution is transforming the Aerospace and Defense Industry & the emerging challenges that will have to be addressed to sustain the momentum and accelerate the road map for exponential growth in A & D sector.

Experts of Boeing India Research and Technology, Safran Engineering, Rockwell Collins, (formerly UTAS), DRDO, NAL, EATON, and ISRO are expected to be the keynote speakers and panelists at the event.

The event will be -

- A forum for effective brainstorming on the digitization in the Aerospace and Defense Industry.
- A platform to foster honest debate on the road to Digitization in A & D Industry
- Analyse current scenario and the impact of Digital Revolution in Aerospace and Defense Industry.

Major Events of Aerospace Board since 2009

- Aerospace Standards workshop conducted by SAE International in Bangalore and Hyderabad June 2012
- National Aerospace Conference & Exposition in August 2012 at Chennai
- New Vistas of Indian Aerospace & Defense with Indo-French Chamber of Commerce in Feb 2013
- Propel High with Project Management conference, jointly with PMI India in July 2014
- International workshop on Integrated Vehicle Health Management for Aerospace Applications & International Technical Committee meeting for HM1 & E-32 at Bangalore in Oct 2014.
- Make in India – transformational Driver for Aerospace & Defense in July 2015.
- Aerospace Then, Now and Future in Feb 2017.
- Systems Engineering for Prognostics and Health Management Systems on 30th May 2018.

Topics for discussion

- Entire lifecycle of the aerospace industry – Design Engineering, Manufacturing, Operations, Supply Chain etc.
- Panel Discussion topics - Digital PLM, MRO in Aerospace Manufacturing & Operations, DDSG etc.
