The past decade has seen a revolution in mobility technologies and COVID 19 has changed the way we perceive personal mobility. Developed economies are adopting mobility solutions based on Autonomous, Connected, Electric and Shared (ACES) technologies.

Emerging economies like India must forge their own paths to meet the goals of sustainable development in the context of our energy security, economic development and growing aspirations of all citizens.

There is a need to redefine ACES for India as Affordable, Connected & Shared, Environment Friendly (incl. Electrification) and Safe.

ITEC INDIA 2021
Will present an array of papers across different topics in parallel technical sessions from both India & abroad

Topics/ Areas Included but are not Limited to:
- Ecosystem Enablers: Intelligent Mobility Solution, Infrastructure, Smart Grids, V2G & Smart Cities
- Electric and Hybrid Electric Vehicle Architecture
- Standards, Regulations & Policies for Holistic Carbon Approach & Recycling
- Energy Storage, Fuel Cells, Battery and Battery Management
- Electrification in Goods Transport Vehicles (HEV’s, SEA’s, Vertical)
- Power Electronics, Electric Machines & Actuators
- Modelling, Simulation & Control
- Consumer Aspect and Research
- Pre-Conference Tutorials:

Learn to validate electric Powertrain Design using Physics based simulation Tutorial Facilitator: Ansys Program Duration: 6 hours Date: 15th December 2021

Electrification technologies & managing EV Data (basics of data analytics) Tutorial Facilitator: MathWorks Program Duration: 6 hours Date: 15th December 2021
