NATIONAL SCIENCE DAY PROGRAM

ELECTRIC & SUSTAINABLE MOBILITY

A sustainable transportation system is the need of the hour and it needs to be identified, discussed, popularised, and practised.

Government policies and mandates have resulted in increased adoption of Electric Vehicles (EV) as the future of transportation.

In this context, an expert session is being arranged to deliberate and enlist the best practices being followed by different key players working in the field of sustainable electric mobility. The program on the occasion of National Science Day aims to create awareness about Electric Vehicles and Ecosystems.

DATE:
26TH FEBRUARY 2022

TIME:
11 AM TO 12.30 PM

JOIN ON:
MS. RASHMI URDHWARESHE
Senior Advisor,
Pune Knowledge Cluster

OUR SPEAKERS

DR. RAHUL WALAWALKAR
Founder & President, India Energy Storage Alliance (IESA)
President & MD, Customized Energy Solutions India Ltd.

DR. SUSHL RAMDASI
Deputy Director, Powertrain Engineering Laboratory
Automotive Research Association of India (ARAI)
