About OffTeCON:

OffTeCon is the off-highway technology conference, being organized by SAEINDIA Off-highway Forum, on a biennial basis.

OffTeCon will convene and connect high-tech and engineering professionals, from every facet of off-highway industry, by celebrating technology breakthroughs and wins, engaging in key and critical conversations, sharing practical solutions and premier technical information, gaining invaluable insight into modern and future Off-highway, technologies and opportunities.

About Off-Highway board:

In 2010, SAEINDIA Off-Highway board was established, which serves all facets of Off-Highway mobility engineering related to all vehicles/equipment operated in rough terrain, mining, farm, and non-track e.g. agriculture, construction and defense. Since its inauguration, the board has been instrumental in focusing on the common issues related to Technologies of tomorrow and the talent pool and has organized several national-level events.

SAEINDIA is India's leading resource for mobility technology. As an individual member-driven society of mobility practitioners, the ownership of SAEINDIA lies with its members who are individuals from the mobility community, which includes Engineers Executives from Industry, Government Officials, Academics and Students.

SAEINDIA is a strategic alliance partner of SAE International registered in India as an Indian nonprofit engineering and scientific society dedicated to the advancement of the mobility industry in India.

SAE International is a global association of more than 128,000 engineers and related technical experts in the aerospace, automotive and commercial-vehicle industries. Our core competencies are life-long learning and voluntary consensus standards development.

SAE International's charitable arm is the SAE Foundation, which supports many programs, including A World In Motion® and the Collegiate Design Series.

The conference is expected to be widely attended by over 200– 300 mobility experts, entrepreneurs and leaders from across the mobility segments including professionals from R&D, manufacturing and services along with faculties, students and independent researchers. The conference will also have a concurrent exposition and technology theatre which are expected to have foot fall in excess of 700.
